## Explore the crown of the tree or hide away in the hollow trunk

Lui is a single-tower **MiniPlay** play environment. From the crown of the tree, children can discover the world from up high through the dome window, which is made of impact-resistant polycarbonate. The small window on the other side encourages social interaction while enabling children to observe their surroundings.

Underneath the floor, you can climb into the secret lair, which is ideal for swapping secrets and telling stories, or playing 'sleeping bear'. The sky is the limit.

## Lui has been developed for tots and toddlers

Like the rest of the MiniPlay family, Lui has been developed for children aged 0-4 years. In designing the series, the focus has been on incorporating age-appropriate activities and features that develop children's motor skills. Over a whole year, we have developed, tested and tailored activities together with children and childcare professionals, for example occupational therapists and physiotherapists. This ensures that MiniPlay is geared to the youngest children, and that all the activities are designed to support children's natural development, including their gross and fine motor skills, cross-coordination, linguistic, social and emotional development as well as logical and abstract thinking.

## MiniPlay is the best playground equipment for the youngest children:

- LEDON MiniPlay has been specifically designed for children aged 0-4 years

## Specifications

### Order number

MP130G: In-ground mounting  
MP130C: Surface mounting

### Product dimensions (LxWxH)

231 x 86 x 177 cm

### Area requirement incl. safety distances (LxW)

481 x 386 cm

### Maximum fall height

58 cm

### Age recommendation

From 0 year

### Approximate installation time

2 persons 3 hours

## Why choose LEDON:

Danish design and production

Playground equipment developed in cooperation with children

Low maintenance playgrounds

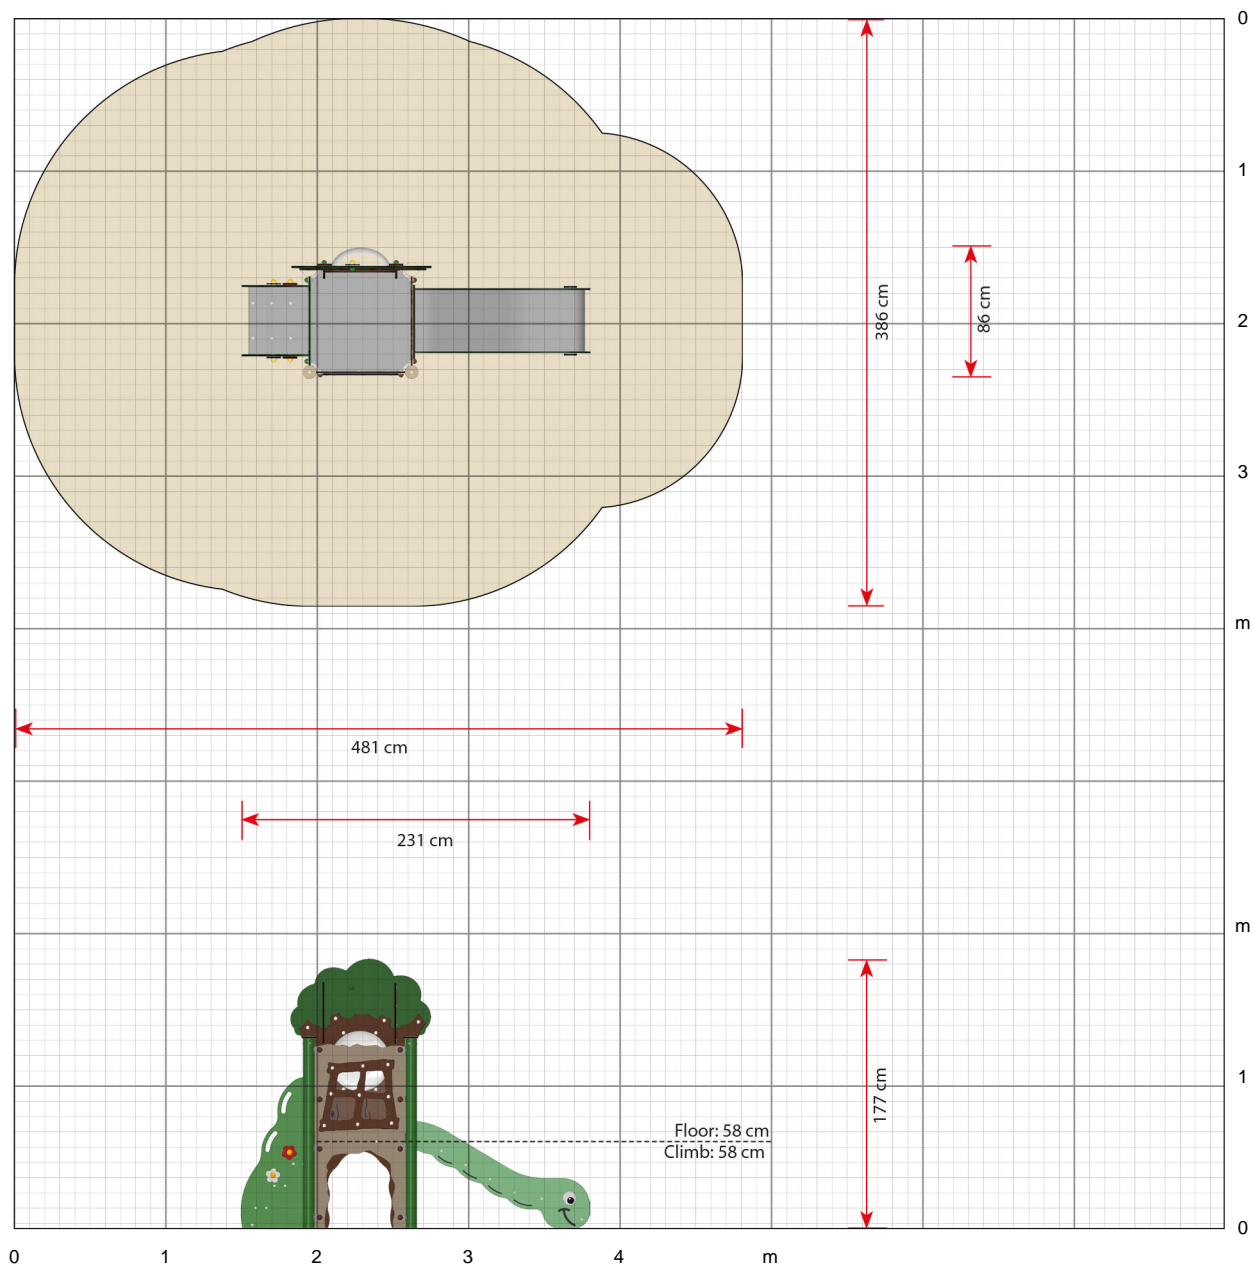

Made with sustainable materials
